## R3500 / Lot No. 0010183

Wistar Rat Liver Microsomes
Untreated, Female, Pool of 50
0.5 mL at 20 mg protein / mL

## Specific content and activities ${ }^{\text {a }}$

## Content / Rate

| Cytochrome $\mathrm{P}^{2} 50$ | $(\mathrm{nmol} / \mathrm{mg}$ protein $)$ | 0.436 |
| :--- | :--- | :--- |
| Cytochrome $\mathrm{b}_{5}$ | $(\mathrm{nmol} / \mathrm{mg}$ protein $)$ | 0.576 |
| NADPH-cytochrome $c$ reductase $(\mathrm{nmol} / \mathrm{mg}$ protein $/ \mathrm{min})$ | $335 \pm 3$ |  |

7-Ethoxycoumarin $O$-dealkylation ( $\mathrm{pmol} / \mathrm{mg}$ protein $/ \mathrm{min})^{\text {b }}$
$1140 \pm 20$
${ }^{\text {a }}$ Characterization is performed when the first lot of a product from a given subcellular fraction (e.g., $S 9$ ) is prepared. Subsequent lots are subject to a verification test only. Values for enzyme activities are mean $\pm$ standard deviation of three or more determinations.
${ }^{\text {b }}$ Assay performed at $500 \mu \mathrm{M}$ substrate concentration. Lots prepared prior to 1999 were characterized at $100 \mu \mathrm{M}$ substrate concentration.

|  | Animal Information |
| :--- | :--- | :--- |
| Species: | Rat |
| Strain: | Wistar |
| Sex: | Female |
| Age: | $\sim 8$ weeks |
| Vendor: | Charles River, Wilmington, MA |
| Animals were housed in an AAALAC-accredited facility and allowed to acclimate $\geq$ seven days before use. |  |
|  |  |
| Food: | Harlan Teklad Rodent Chow \#8604 (ad libitum) |
| Water: | Automatic watering system (ad libitum) |
| Light/dark cycle: | $6: 00$ am $-6: 00$ pm, light; 6:00 pm - 6:00 am, dark (12-hour light/dark) |
| Temperature: | $72^{\circ} \mathrm{F} \pm 3^{\circ} \mathrm{F}$ |
| Humidity: | $45-55^{\circ} \%$ |
| Bedding: | Cell-Sorb Plus (gypsum treated paper product), A\&W Products, New Philadelphia, OH |
| Cage: | Polycarbonate Shoebox Cage, conventional cage |

## Store at $-80^{\circ} \mathrm{C}$

CAUTION: Although strict measures are taken to ensure that livers obtained from laboratory animals do not harbor infectious diseases, we recommend that all animal products be handled as potential biohazards and universal precautions be followed.

For in vitro use only
